

OFFICIAL BRIEFING

Children deserve the opportunity to laugh, play, learn, grow and thrive in their childhoods. But instead, millions are being forced to flee their homes, endure hunger and fight to survive.

THE PROBLEMS WE NEED TO OVERCOME

ONGOING CONFLICT Global conflicts create incredible instability for families, businesses and entire economies. In fact, worldwide, **1 in every 6 children live in a conflict zone**, meaning families often need to move from their homes and into displacement camps where they struggle to provide the basic necessities their children need to survive.

STRUGGLING HEALTH We're committed to providing effective health programs that save children's lives and ensure they grow up healthy. This is especially important as **5.4 million young children die every year from preventable diseases**, such as pneumonia, malaria and diarrhea.

LACK OF ACCESS TO EDUCATION Whether it's due to global displacement or ongoing poverty, millions of parents can't send their children to school to continue learning. Right now, **12 million refugee children have no access to education and 2 in 5 children living in poverty in the U.S. have no access to preschool.**

TOGETHER WE CAN HELP ENSURE CHILDREN HAVE THE OPPORTUNITY TO LIVE, PLAY AND THRIVE BY PROVIDING:

Cash transfers for families to help them access nutritious food and education supplies.

Temporary learning facilities for children living in conflict-affected areas, helping to keep them safe.

Child-friendly spaces for kids that include education resources, activities and games.

When children experience difficult situations, all areas of their lives are impacted. The disruption changes their physical well-being, their mental health and their futures.

Save the Children has worked for more than 100 years helping to ensure children have a healthy start in life, the opportunity to learn and protection from harm — and the chance for kids to be kids. But more help is urgently needed now.

We set a goal of raising \$250,000 by October 15th. Every gift is critical. Your donation will be put to work immediately to help provide safe spaces, health and nutrition resources and more access to education — creating opportunity for a better and brighter future that a child in crisis deserves.

You can make a difference for children and their futures. Here's how:
